

Acquisition of optical module manufacturers

Overview

This business, known for its reliable and scalable pluggable modules, has been sold to Jable. This divestment is part of Intel's new strategy to focus on its core manufacturing and processor business. Xi'an, China, September 2nd, 2024 - - Focuslight Technologies Inc. (Shanghai Stock Exchange: 688167), a global provider of high-power diode lasers and materials, laser optics and photonics modules and system solutions, today announces the successful acquisition of optical component assets from ams. 5 trillion are announced globally. CERES identifies and analyzes 701 transactions valued at \$51. 8 billion specifically in the photonics industry and vertical markets where photonics technology has a steep upward trajectory in 2024. To help you choose the best partner, this article will analyze and. Geopolitical instability is fueling game-changing, photonics enabled solutions in drones and counter-drone technology; Laser Directed Energy Weapons (LDEW); military robots; 3D printing of munitions; and Counter Communications Systems (CCS) for electronic warfare.
