

Bridges near the Maldives

Overview

The Thilamalé Bridge, also known as the Malé-Thilafushi Bridge and more formally known as the Greater Malé Connectivity Project (GMCP), is a road project currently under construction that aims to link capital Malé with the islands of Villingli, Gulhifalhu, and Thilafushi in the Maldives. This project has been said to be "the largest-ever infrastructure project in the Maldives." Once completed t. Need for the bridgeMalé is the capital of and nearly 40% of its population lives on the Malé island of 8.30 square kilometer. The plan proposes the construction of three navigation bridges of 140 m main span across the deep channel between each island, 1.41 km of marine viaduct in deep water, 2.32 km marine in shallow water or o. Following a five-year grace period, the interest rate is 1.75% and the Maldives has to return it through a 20-year time. In the \$500 million, \$100 million is on grant, while \$400 million is on Line of Credit by the EXIM Bank.
