

Correct Method for Using Fusion Coat

Overview

Our non-yellowing water-based wipe on sealer, is easily applied with a Staalmeester Roller or an Applicator Sponge and dries to a matte finish. We recommend your applicator sponge be slightly humid. The best topcoats for lighter colours are our water-based non-yellowing Tough Coat in Matte or Gloss, or our Ultra Guard in Flat and Satin. Our formulation will not yellow your whites. Trying to decide if this top coat is right for you?

This complete top coat guide can help you decide. Perfect for. Our Tough Coat™ is perfect for those high-traffic surfaces all around the house -- just apply, let dry, and you're all set! PRODUCTS USED: • Tough Coat™ Matte. It's known for its exceptional coverage and durability, making it a popular choice among DIY enthusiasts and professional painters alike. It has a waterproof, scrubbable and non-porous surface when dry, so why the extra step?

Well there are a few areas that I always top coat like a dining room table top and a girls dressing table top. You could also argue that kitchen. This video shows how simple and easy it is to apply Fusion Mineral Paint Tough Coat and achieve a beautiful streak-free finish!.
