

Fiber optic connection router account

Overview

Access the router's admin panel: Open a browser and enter the router's IP address (e.g. 192.168.1.1).
Enter ISP credentials: If required, input the username and password provided by your ISP. Since the FRITZ!Box establishes and controls its own internet connection over the fiber optic modem, all FRITZ!Box functions (such as firewall, telephony) are also available without restriction in this operating mode. It is not possible to access the internet if account information or a VLAN ID is not provided. I need information on what settings I need to configure on my router to access Internet via fiber optic modem. I never received it from Telekom, as well as Access number (Zugangsnummer). With my router is capable of PPPOE as well as other connection options and I wonder how do I get the details to set it up?

Can you tell us the name of the manufacturer and the typename or partno. Select "DSL or fiber optic modem" from the drop-down list "Internet connection via".
