

Fireproof electrical box cover

Overview

Switch boxes, in walls subject to fire regulations, must be correctly fire protected. Once a hole is made in the wall for a recessed switch or socket box, the fire integrity of the construction is compromised. Astroflame's Socket Box Covers are manufactured from halogen free, low smoke, intumescent mineral fibre material and are designed to reinsta. Please contact us and quote the following - Quantity / Product Code / Product Description / Size Typical example:- 10 / AFFRASOCS / Astro FRA Socket Box Cover Single / Single >> Tel: 01329 844 500 or >> Email: sales@astroflame.com We have technical representatives who provide assistance in the selection and specification of the products on this site and should be consulted for exact installation and product suitability. Ensure an early engagement with ourselves, designers, main contractor and specialist installers before any installation. Other trades and/or manufacturers ma. All interested parties, designer, specifier, main contractor and specialist installers should provide access to allow the fire stopping seals to be regularly inspected and maintained, as well as records kept of such maintenance at minimum periods of 12 months, as required by the Regulatory Reform Order, and repaired if necessary. Reference should b. It is vital that those entrusted to design or install a fire stopping product have the necessary levels of competence to undertake the task professionally and thoroughly. The level of competency required will be commensurate with the expected complexity of the building. All designers must eliminate, reduce or control foreseeable risks that may aris.
