

# Ghana will manufacture fiber optic cables

## Overview

Danida Sustainable Infrastructure Finance (DSIF) has co-financed the establishment of a 1,000 km fibre cable in Ghana, stretching from the border with Burkina Faso to the capital of Accra, and which is further connected to a West African submarine cable outside Accra. Ghana's Cabinet has approved a transformative proposal from the Ghana Chamber of Telecommunications to integrate fibre-optic ducts and access chambers into all new road construction projects across the country. Road and construction activities caused 60% of Ghana's fiber cuts, including 10,832 outages in 2023-24, costing 138 million cedis in 2024 alone. Telecom operators expect. Telesuprecon specializes in telecommunications infrastructure, particularly in the installation and maintenance of fiber optic cables. SERVICES Telesuprecon > SERVICES. Denmark has contributed to the establishment of a large fibre cable project that has led to significant economic benefits in Ghana.
