

Greece Optical Cable Fusion

Overview

Grid Telecom has revealed plans to construct ARTEMIS, a new ultra-high-capacity subsea optical fibre cable system connecting Crete with mainland Greece. The United Fiber, a wholly owned subsidiary of United Group and the company behind the design and deployment of the region's next-generation fiber infrastructure, has confirmed that construction of its new Athens-Thessaloniki underground route remains on schedule for completion in October 2025. Once. Tamares Telecom, a leading fiber-based international communications and data service provider and network operator, a subsidiary of Aluma Infrastructure Fund and Grid Telecom, a wholly owned subsidiary, and the telecommunications vehicle of the Independent Power Transmission Operator (IPTO) of. United Group and Nova, loyal to their commitment to drive the digital transformation of Greece, proudly introduce the new company United Fiber. United Fiber is tasked with the construction and operation of Fiber networks and combines the joint expertise of Hellenic Open Fiber and the vast know-how.
