

How to restart the optical splitter box

Overview

1 Disconnect the cable splitter's power cord from the port on the back of the splitter, and wait ten seconds. Notify the shipper immediately and retain packing material for inspection if any parts appear to be damaged from shipping or if the carton itself shows signs of mishandling. Save the carton and all packing materials. Was this article helpful?

Have more questions?

Submit a request Solution:Yes, it's recommended to power cycle (unplug and plug back in) the. How to Place the Optical Splitter?

When employing the first-level splitting method in a residential network, optical splitters offer flexibility for indoor or outdoor installation.
