

Huijue Monitoring PoE Switch

Overview

HJDUM01 series wall-mounted communication switching power supply system, supplied by Huijue, features wide-range AC input of 90Vac~300Vac, 96% conversion efficiency, intelligent battery management, and RS485/TCP-IP monitoring with IP31 protection. HJ-EMS energy management and operation platform focusing on digital, intelligent and networked management of infrastructure, helping users achieve efficient and reliable power supply at the site level and network level, simplifying operation and maintenance and reducing operation and maintenance. Huijue Group was established in 2002 and is a comprehensive high-tech group that integrates diversified development such as communications, the Internet of Things, and new energy. The group owns 6 wholly-owned subsidiaries and 4 major production bases located in Shanghai, Yangzhou, Haian, and. PoE stands for Power over Ethernet, which means power supply through Ethernet. This technology allows devices such as IP phones, wireless access points, and. This PTZ camera can rotate 90° vertically and 300° horizontally for wider security coverage with no blind spots. The smart auto-tracking feature can automatically lock and track moving humans ensuring you don't miss any suspicious. Introduction to PoE switches for IP Surveillance What is IP surveillance?

Imagine a security system that doesn't rely on outdated analog cameras and clunky wires. It is designed for indoor and outdoor communication.
