

Meaning of distribution box bmdx

Overview

BMDX series Ex-proof & corrosion proof power distribution box/junction box/pull box

1. Can be used in hazardous areas: Zone 1 and Zone 2
2. Can be used in explosive gas atmospheres of Category II A, II B, II C where the temperature classification is T1~T6

This product is combined with flame-proof cavity and an increased safety cavity, the branch switch and the main switch are operated by the operating handle on the panel. Modular structure, The enclosures can be combined and installed to meet the various requirements of power distribution systems. G1/2"~G2, HLBM- is recommended, refer to P□ for details M16×1. be widely used in the fields of oil. IP66 Protection

Distribution boxes, also known as electrical distribution boards or panels, are pivotal components in electrical systems, ensuring the safe and organized distribution of electrical power throughout residential, commercial, and industrial environments.
