

Mobile Belgium fiber optic cable outage

Overview

Dear customers, We are currently experiencing an outage with all services related to the 91GEN area (West and East Flanders). Our Network Operations team is investigating this outage. Further updates will be released as soon as possible. Our supplier has scheduled a maintenance that may cause service interruptions for xDSL and fiber optic customers in the Brussels-Capital Region and surrounding municipalities in the provinces of Flemish and Walloon Brabant. Please find all details below: We apologize for the inconveniences. Dear. This graph shows additional details related to IODA's Active Probing measurements, including Round-Trip Time (RTT) Latency and the percentage of IODA's probe packets that did not get a response. The Internet Outages Map is an at-a-glance visualization of global Internet health over the last 24 hours, tracking Internet outages across ISPs, top application providers, public clouds, and edge service networks.
