

Optical cable type YOFC

Overview

YOFC manufacture different types and standards of optical preform, optical fibre and optical cable that widely installed in telecommunication industry, also designing customised specialty fibre and cable, including integrated system, project design and service. Air-blown micro-cables & micro-tubes, applied in a variety of application scenarios, improve the utilization ratio of pipe holes, effectively solve the problem of pipeline resource. Optical cable indoor and outdoor with high count fiber or other features used for Distributed Base Stations. n represent the number of fibers in the cable. n represent the fibre counts of the. YOFC is the only company in the world that has independently possessed the manufacturing technology of all three mainstream preforms (PCVD, VAD and OVD), and successfully achieved the industrialization of preform manufacturing technology. In 2021, YOFC won a gold medal from EcoVadis.
