Interactive Map of Submarine (underwater)

Modern submarine cables use fiber-optic technology. Lasers on one end fire at extremely rapid rates down thin glass fibers to receptors at the other end of the

How to create a Fiber (Line infrastructure) project and use a KMZ/KML ...

Learn how to effectively plan and execute a Fiber Line infrastructure project using KMZ/KML file elements for site location.

Top 5 Ways to Generate Fiber Network KML Files

For fiber companies, KML files serve several important purposes: Network Visualization: Display the layout of fiber optic cables, splice points, and distribution boxes on interactive maps.

As Russia's fiber optic drones flood the battlefield,

Editor's Note: In accordance with the security protocols of the Ukrainian military, soldiers featured in this story are identified by first names and

KMZ to Excel Tool - Convert Lines to Spreadsheet

Use Cases - Fiber Optic Network Design: Easily calculate and export cable lengths from planning routes - GIS Projects: Turn raw .kmz data into structured Excel

Submarine Cable Map 2022

PEACE Cable. The cable is slated to launch in early 2022 and will span 12,000 kilometers between Pakistan and France, with extensive branch coverage down

Cable Data Services

Free to use and accessible for all, this map details generalised routes for all in-service fibre optic cables. We believe it to be the most accurate platform

Map | Connected Coast

As-built cable location files in KMZ (Google Earth file format) & GPX (navigation file) are available. To receive a copy and future file updates, please fill out the form on

What is a KMZ File? A 2025 guide to keyhole markup language

KMZ files are common in network planning. They map buildings, fiber paths, and coverage zones in one view. Teams use them to share site data without losing layout or image files. What is a

Membership Fiber Lines in Google Earth

Use this link (opens a new tab) to download a file (.kmz) of all member fiber lines -. To Download All Member Fiber Lines File. Click file after download to open in Google Earth. Need Google Earth?

Fibre-optic Link Around the Globe

Fibre-optic Link Around the Globe (FLAG) is a 28,000-kilometre-long (17,398 mi; 15,119 nmi) fibre optic mostly- submarine communications cable that connects

Windstream Wholesale Offers KMZ Wavelength Map Files on Demand

Little Rock, Arkansas – January 5, 2022 – (BUSINESS WIRE) – Windstream Wholesale, a leading provider of advanced optical solutions, today announced that it can now offer customers a

Adding Fiber Path Data in Cisco Crosswork Hierarchical Controller

Fiber is just physical media and is not reporting its location. The customer should provide the Cisco team with a KMLKMZ file with this physical information. Today, this file can be uploaded

Membership Fiber Lines in Google Earth

View All Member Fiber Lines In Google Earth: Use this link (opens a new tab) to download a file (.kmz) of all member fiber lines – To Download All Member Fiber Lines File Click file after download to open

GIS for Optical Fiber Planning : r/gis

Best and easiest way is using kmz to make your cable layout and afterwards importing that kmz to ArcGIS. After importing you can edit attribute table and add other fields for the cable.

Empowering Connectivity through Broadband Mapping

Explore the Map Broadband Maps A GIS tool aiming at helping to address connectivity gaps and enhance affordability and resilience strategies. It offers

Internet Infrastructure Map (2026)

Explore the physical backbone of the internet with our interactive map of undersea fiber optic cables, peering exchange points, and more.

How To Use .KMZ Data When Evaluating Fiber Routing

If you're designing a wide area network (WAN), you'll need to know about .kmz files. We'll unpack how to use .kmz files to guide your connectivity

Adding Fiber Path Data in Cisco Crosswork Hierarchical Controller

How do you input fiber optic path data in HCO? For example, the physical path the fiber takes between geolocations. Is this data typically imported from a ONE's (optical network element)?
