

Smart NIC PDU

Overview

These Smart PDUs are suitable for helping small, midsize, enterprise, and colocation data centers increase efficiency, raise productivity, and improve reliability. Intelligent Power Distribution Units – Switched, Metered & Monitored PDUs for Data Centers, Telecom, and Industrial applications. Reduce IP addresses by Daisy Chaining up to 64 PDU's. Modular, compact intelligent PDU with inlet metering. From basic power to power monitoring, the rPDU product line adapts to a business' needs now and in the. Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. It not only supplies power to IT equipment in data centers, distributes power to various servers and network devices, but also provides remote monitoring, management, and control of power. Vericom's rackmount Smart Power Distribution solutions are engineered to efficiently deliver power to your equipment, are exceptionally reliable and user friendly, and offer the best price-performance ratio in the industry.
