

Transparent cover for electrical distribution box to prevent dust

Overview

This transparent protective cover is designed for panels and control cabinets, providing maximum protection in demanding industrial and environmental conditions. Protect your electrical installations from water, dust, and harsh conditions. These covers allow a clear view of the panel's contents, reducing the need to open the cover during inspection, thus ensuring both. Easy to Install The distribution box is lightweight, the protective box also has a DIN rail, so the convenient installation can be completed quickly in a few minutes. And we are sure that the feature of the distribution box will attract your attention Premium Material The distribution box is made. SmartGuard manufactures clear, durable protective covers for electrical boxes, outlets, switches, HVAC pipes, ducts, floor openings, and more — all engineered to withstand real jobsite conditions. Painted in gray color RAL 7035. It has a hard plastic quarter turn closure. Includes 1 mm galvanized metal.
