

Uruguay Bridge Structure Design

Overview

Opened in December 2015, this circular bridge spans the biodiverse Laguna Garzón, connecting the departments of Maldonado and Rocha. Designed by acclaimed architect Rafael Viñoly, the structure is more than a crossing—it's a testament to how engineering can enhance, rather than. The bridge's unusual circular road deck slow traffic and allows drivers, pedestrians, and cyclists to appreciate panoramic views to one of the most beautiful and pristine coastal landscapes in Uruguay. The Garzón Lagoon is one of a series of environmentally sensitive bodies of water along Uruguay's. Voice-over artist, writer, and TV director with a B. in Communication Arts and certificates in SEO, Integrated Marketing, Teaching Language Online, and Psychological First Aid. Her articles have been shared by IMDB. This bridge connects Maldonado and Rocha, south of the Laguna Garzón lagoon, near its outlet in the Atlantic Ocean. It is a circular bridge, with a 51.5 m radius, and two straight spans in its access. It is an iconic architectural. Rafael Viñoly has gone full circle — literally.
